Education

Wainganga College of Engineering and Management, Nagpur

Bachelor of Technology (B.Tech) in Computer Science and Engineering

Sep 2022 – May 2025

Gramin Technical & Management Campus

Diploma in Computer Engineering

Sep 2025 – May 2028

Experience

Dream Webies Pvt. Ltd.

June 2024

- Gained hands-on experience in **Flutter application architecture, cross-platform mobile development**, UI/UX design principles, and the complete mobile application development lifecycle.
- **Developed and enhanced** Flutter applications using Dart, **implementing responsive user interfaces, state management**, and API integration while following software development best practices and coding standards.
- Collaborated with the development team to understand real-world project workflows, version control using Git, testing, debugging, and application deployment processes.

Projects

Mediconnect

- Built a healthcare app for **doctor appointment booking and call support** based on availability
- Implemented **nearby hospital recommendations** using location services
- Tech Stack: Flutter, Supabase (or Firebase if used), REST APIs, Location Services

Study With AI

- Developed an AI tool to convert **PDF/text into flashcards, MCQs, and quizzes**
- Added **auto-evaluation system** for practice tests
- Tech Stack: Flutter, AI API (Groq/OpenAI), Text Processing, State Management (Riverpod)

Agro AI (Plant Disease Detection)

- Created an AI-based app to **detect plant diseases from images** and suggest treatments
- Integrated **nearby store recommendations** for required medicines
- Tech Stack: Flutter, Computer Vision API, Supabase, Geolocation APIs

Technical Skills

Programming Languages: Python, Java, JavaScript, Dart, C, C++

Frontend Development: HTML5, CSS3, React.js, Bootstrap, Tailwind CSS, Responsive Web Design

Mobile Development: Flutter, Android (Java), XML Layouts, Android Studio

Backend Technologies: Django, FastAPI, Flask

Databases: MySQL, PostgreSQL, MongoDB, SQLite

Backend-as-a-Service (BaaS): Firebase, Supabase

Cloud Technologies: AWS (EC2, S3, IAM)

AI/ML Concepts: TF-IDF, Cosine Similarity, Transformer-based Embeddings

Developer Tools: Git, GitHub

Certificates

- Completion Certificate of Industrial Training – Mountrech Solutions Pvt. Ltd.
- Participation Certificate – State Level Project Competition
